PERFECT FOR CONSTRUCTION

Keep projects on track through better coordination of foremen, electricians and drivers. Motorola two-way radios have the business smarts to help you work better in the competitive construction field with a simple push-to-talk button. Built durable, rugged and affordable, two-way radios help you communicate instantly and clearly, even in noisy environments.

Instant and clear communication in Construction means:

- Improved jobsite coordination
- Reduced operational costs
- Faster delivery and material coordination
- Smoother work crew scheduling
- Quick coordination and response to emergencies
- Enhanced safety and security
- Immediate production updates
- Increased customer service and satisfaction
- No monthly operating costs
